What to do if I am not available or if I cannot book a slot on the evening

We understand that not all parents and guardians may be available on these evenings. Please remember that you are able at any time to check in on your young person's progress and attendance using our **Parent Portal** via the link in your email or by entering **exe-coll.ac.uk/school-leavers/parents/parent-portal/** in your browser. You can contact your young person's personal tutor via the information there if you have any queries, including to request support in getting feedback from other teachers.

In some instances you may find that slots are unavailable for certain lecturers (slots may have filled, staff may be unavailable, etc). Where this is the case, please log into the **Parent Portal** to contact your young person's personal tutor via the information there in the first instance. You can request the personal tutor's support in getting feedback from other teachers.

Please ensure the contact information held on your young person's eILP is up to date as teachers will use these details to get in touch with you.
